

Please protect do Not Call Laws. We get constantly slammed with advertising no matter where we are. There are ads on receipts from retail stores, ticketmaster tickets, billboards, radio, tv, newspapers, direct mail, inserts in new product that I have paid for, and most recently ads in movie theaters that also pay for.

The last bastion of my home that I can protect against advertising is my home I can turn off a tv and radio, but I can't turn off my telephone. I can choose to not answer if I know who is calling but telemarketers often have telephone spoofs that hide their identity making it impossible for me to choose.

Thank You
